

# Accessing 2020 Census Redistricting Data on data.census.gov – Searching for 2020 PL 94-171 Redistricting Data

This informational flier will show you how to access the 2020 Public Law 94-171 Redistricting Data through [data.census.gov](https://data.census.gov). Public Law 94-171 (P.L. 94-171) requires that the Census Bureau provide states the opportunity to identify the geographic areas for which specific tabulations of population are needed and deliver those tabulations to the states in a timely manner for the purpose of legislative redistricting.

Many users may want to access the 2020 Redistricting Data to view the population and housing counts for their community. To do this, navigate to our site at [data.census.gov](https://data.census.gov) and click on the Advanced Search button located directly under the Single Search bar.

Once you click on that link, you will see a list of filters on the left side of the screen. Click on Surveys and then select the Decennial Census option. Then, scroll down and check the box for Redistricting Data (PL 94-171).

Since we only want the tables from 2020, go to the 'Years' filter and select '2020' from the list.

The screenshot shows the United States Census Bureau website. At the top, there is a search bar and a link to 'Advanced Search'. Below the header, the 'BROWSE FILTERS' section is visible. Under the 'Years' filter, the year '2020' is selected, indicated by a checkmark and a red box. The 'Selected Filters' section at the bottom shows 'Redistricting Data (PL 94-171)' and '2020 Year'. Buttons for 'CLEAR FILTERS', 'SEARCH', and 'SHOW' are also present.

Next, select the geography you want to view. For this example, we will use the city of Atlanta, Georgia, so we'll click on the 'Geography' filter, and then scroll until we see the 'Place' geography. The 'Place' geography filter helps identify data available for cities and towns. After we select 'Place', we will choose the state that our place is in. Since Atlanta is in Georgia, you will click on 'Georgia' and the page will advance to show all places in Georgia. Since this is quite an extensive list, we recommend using the search bar that is available at the top of the panel.

The screenshot shows the United States Census Bureau website with the 'Geography' filter selected. Under the 'GEOGRAPHY' section, the 'Place' option is selected, indicated by a red box. The 'WITHIN (STATE)' section shows a list of states, with 'Georgia' selected, also indicated by a red box. The 'GEORGIA' section on the right shows a list of cities and towns, with a search bar at the top. The 'Selected Filters' section at the bottom shows 'Redistricting Data (PL 94-171)' and '2020 Year'. Buttons for 'CLEAR FILTERS', 'SEARCH', and 'SHOW' are also present.

If you click on the magnifying glass icon in the top right corner of the panel labeled 'Georgia', a search bar will appear, and you will be able to search for places within Georgia. If we start typing 'Atlanta' into this search bar, the panel will automatically update to show places in Georgia that match our search term. Click on the checkbox directly to the left of 'Atlanta city, Georgia', which should appear at the top of the list. Once those filters are applied, click on the 'Search' button, located at the bottom right corner of the screen.

Then hit the Advanced Search button found beneath the Single Search bar.

Since Census blocks are only available for the Decennial Census, we will only need to select our geography in this search. For this example, let's select Census blocks from Cumberland County, Maine. Click on 'Geography' and then click on 'Block'. Scroll down the next list of states and select 'Maine', and then click on 'Cumberland County, Maine' from the county list. Next, you'll need to select the Census tract. For this example, let's choose 'Census Tract 1' from Cumberland County. The last step is to select the blocks you wish to view. For this example, let's just select a couple blocks towards the top of the list—blocks 1000 and 1001. Once all your selections are made, click on the 'Search' button in the lower right corner of the screen.

This will return all the tables that are available for the blocks that we selected. Click on any table to view. For this example, let's choose table P1, 'Race', again.

The screenshot shows the United States Census Bureau website. At the top, there is a search bar and navigation tabs for 'All', 'Tables', 'Maps', and 'Pages'. Below the navigation, a list of tables is displayed. The 'RACE' table (Table: P1) is highlighted with a red box. To the right of the table list, there is a 'Public Use Microdata' button.

This action will prompt empty checkboxes to appear beside each table name in the list on the left side of the screen. You can select multiple tables to download at once, but for now, let's just select table P1. Once that table is selected, scroll up to the 'Download Selected' button at the top of the list and click on it.

The screenshot shows the United States Census Bureau website interface. On the left sidebar, under '462 Results', the 'RACE' table is selected, indicated by a red box around the checkbox and the text 'DOWNLOAD SELECTED (1)'. The main content area displays the 'RACE' table with columns for 'Label', 'Block 1000, Block Group ...', and 'Block 1001, Block Group ...'. The table lists various racial categories and their corresponding population counts. A red box highlights the 'DOWNLOAD SELECTED (1)' button at the top of the sidebar.

A pop-up panel will appear confirming that you're downloading the 2020 Redistricting Data as a CSV file. Click on the Download button found in the lower right corner of the screen.

The screenshot shows the United States Census Bureau website interface with a 'Download' pop-up panel. The panel has a 'Select Table Vintages' section with a table showing the 'RACE' table selected for the year 2020. Below this, the 'File Type' section shows 'CSV' selected. The 'What You're Getting' section lists the contents of the download: 1 .csv file (metadata), 1 .csv file (data), and 1 .txt file (table title). A red box highlights the 'DOWNLOAD' button in the bottom right corner of the panel.

DOWNLOAD

DECENNIALPL2020....zip

Show all X

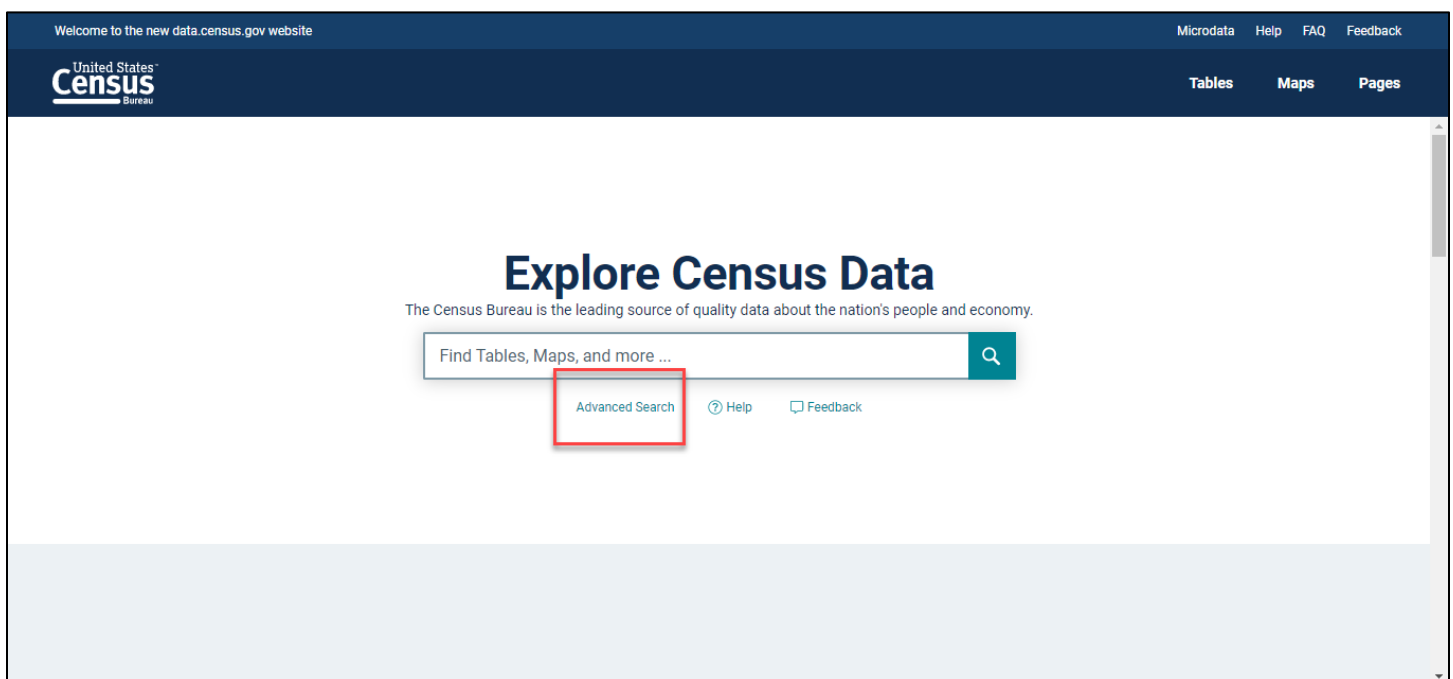

Please note that, once you click on the download folder, you may be prompted to unzip the contents of the .zip file to one of the file folders present on your computer. Open the file that has “data with overlays” in the naming convention and select the file to open in Excel.

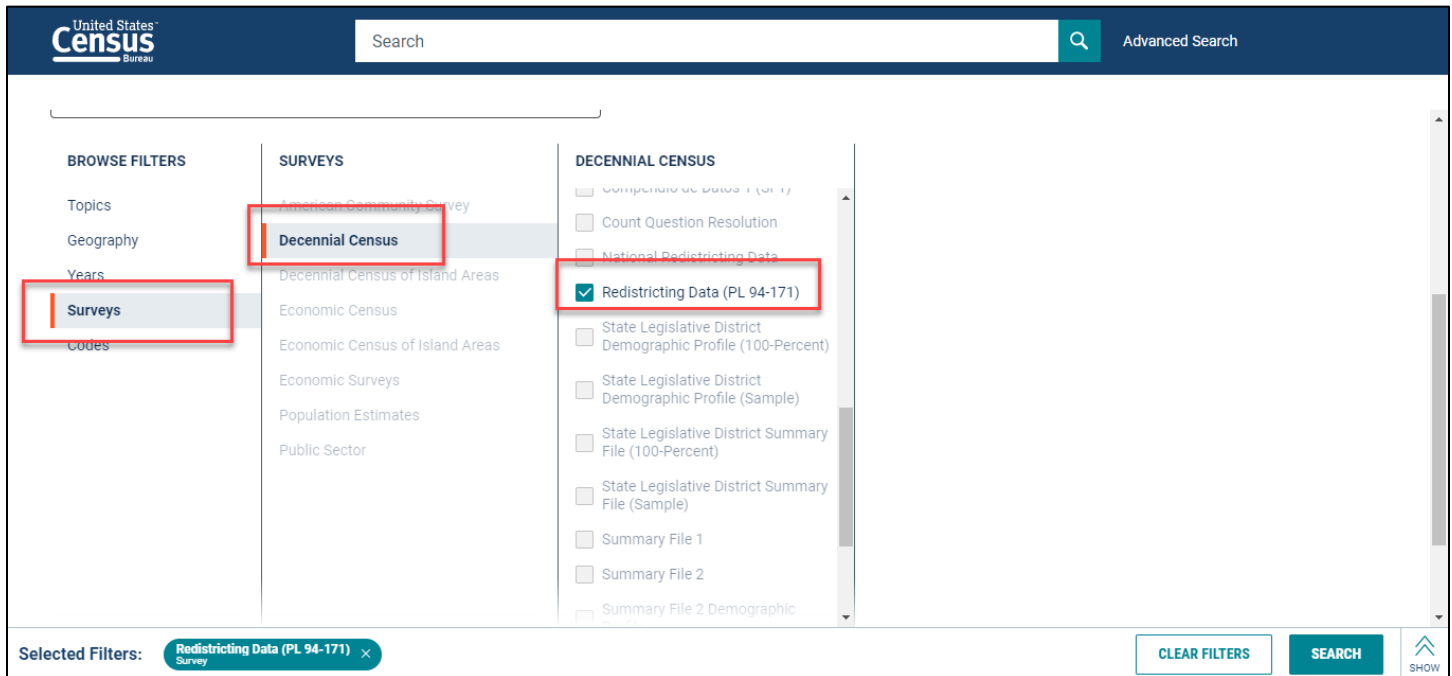

Now that we’ve clicked on that file and have finished waiting for it to open in Excel, we can see the data available for the Census blocks we selected in the Excel file.

You can also find and map PL 94-171 data through data.census.gov. Let’s say you want to find race and ethnicity data for congressional districts in your state. Again, we would click on the US Census Bureau logo and go to the Advanced Search.

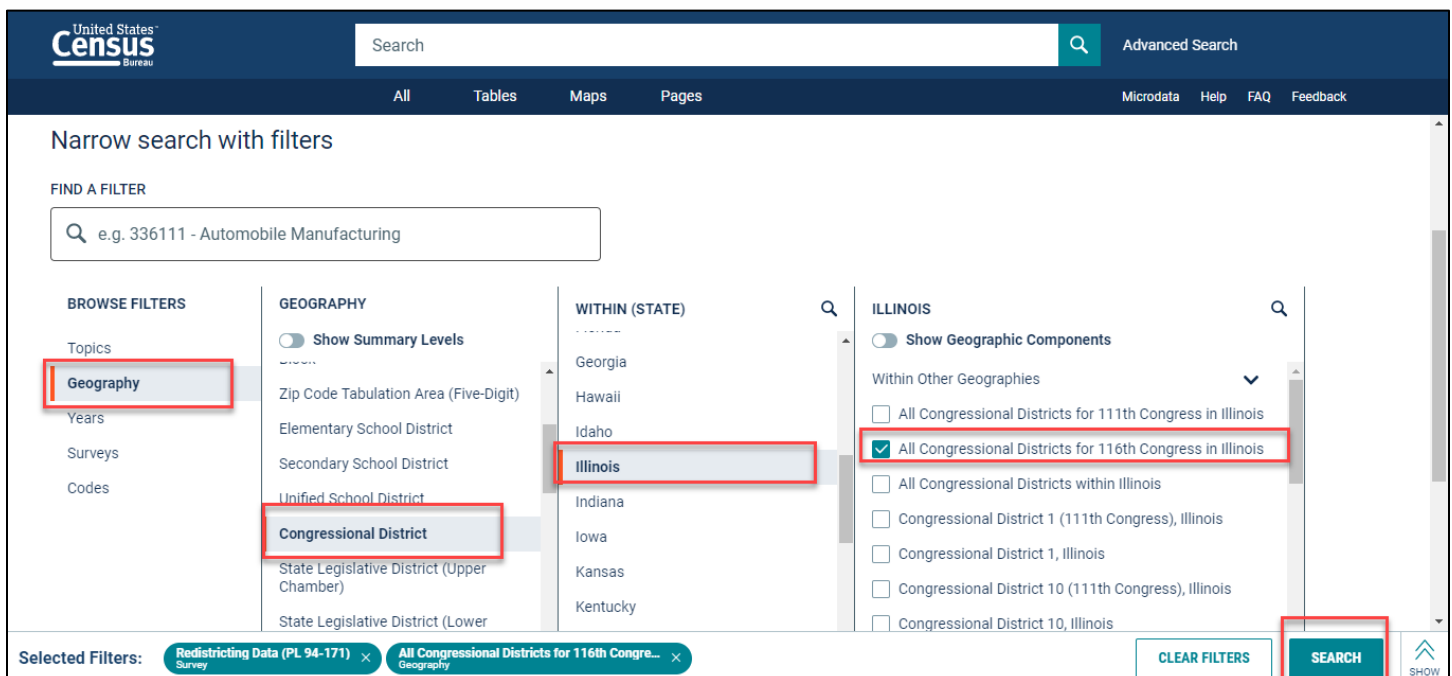

Click on Surveys and choose the Decennial Census option. Then scroll down and check the box for Redistricting Data (PL 94-171).

The screenshot shows the United States Census Bureau search interface. The 'BROWSE FILTERS' sidebar on the left has 'Surveys' selected. The 'SURVEYS' section lists 'Decennial Census' as the selected option. The 'DECENNIAL CENSUS' section on the right has 'Redistricting Data (PL 94-171)' checked. The 'Selected Filters' bar at the bottom shows 'Redistricting Data (PL 94-171)' and a 'SEARCH' button.

Next, let's select congressional districts in Illinois for this example. Through the 'Geography' filter, you will select 'Congressional District' and then 'Illinois' as the state. Then, select 'All Congressional Districts for the 116<sup>th</sup> Congress in Illinois' and click the 'Search' button as we did in our previous example searches.

The screenshot shows the United States Census Bureau search interface with more filters applied. The 'BROWSE FILTERS' sidebar has 'Geography' selected. The 'GEOGRAPHY' section lists 'Congressional District' as the selected option. The 'WITHIN (STATE)' section lists 'Illinois' as the selected state. The 'ILLINOIS' section on the right has 'All Congressional Districts for 116th Congress in Illinois' checked. The 'Selected Filters' bar at the bottom shows 'Redistricting Data (PL 94-171)' and 'All Congressional Districts for 116th Congress in Illinois', with a 'SEARCH' button.

Then, choose a table related to race and/or ethnicity from the results page. For this example, I chose table P2, 'Hispanic or Latino, and Not Hispanic or Latino by Race'.

### HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE

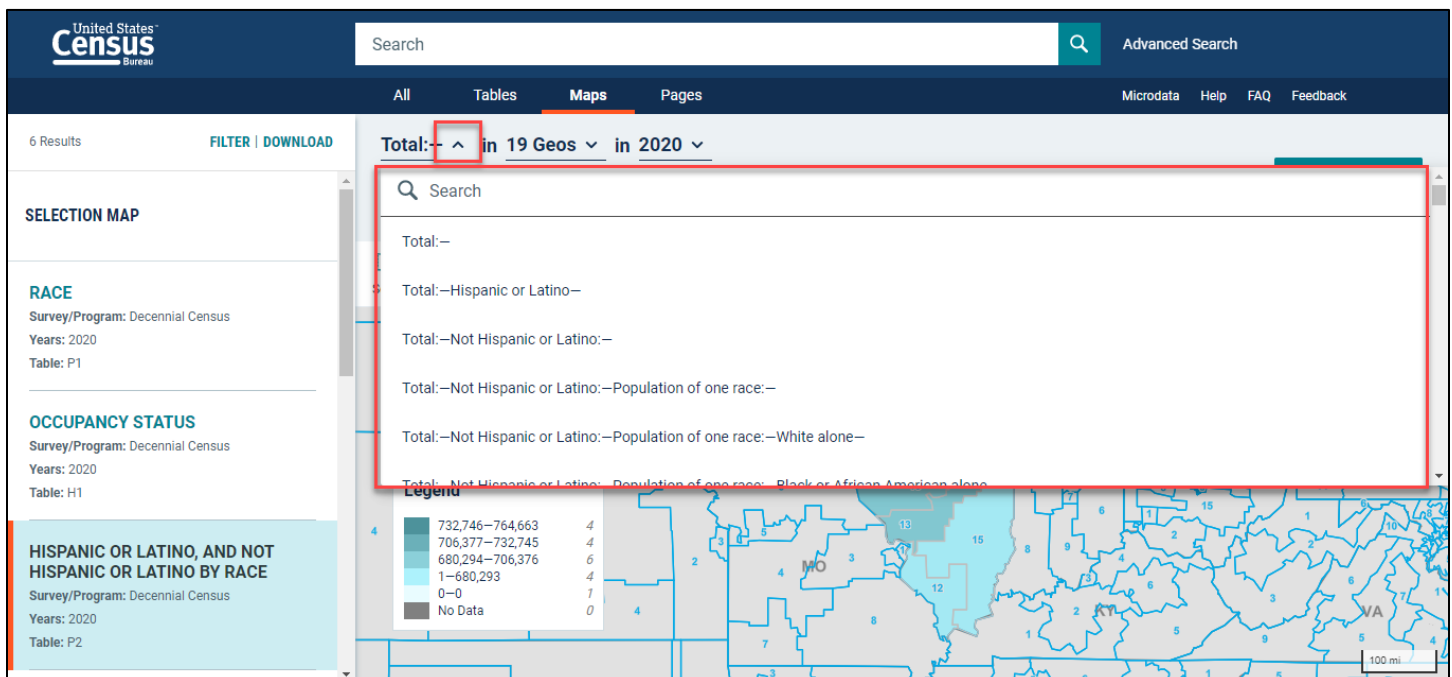

Survey/Program: Decennial Census Product: 2020: DEC Redistricting Data (PL 94-171) TableID: P2 Universe: Total population CUSTOMIZE TABLE

Label	Congressional District 1, I...	Congressional District 2, I...	Cong
▼ Total:	705,949	679,628	
Hispanic or Latino	86,039	105,835	
▼ Not Hispanic or Latino:	619,910	573,793	
▼ Population of one race:	602,325	555,328	
White alone	232,760	162,692	
Black or African American alone	351,002	384,201	
American Indian and Alaska Native alone	751	888	
Asian alone	15,309	4,791	
Native Hawaiian and Other Pacific Islander alone	108	127	
Some Other Race alone	2,395	2,629	
▼ Population of two or more races:	17,585	18,465	
▼ Population of two races:	16,180	16,795	
White; Black or African American	5,345	6,948	
White; American Indian and Alaska Native	2,055	2,556	

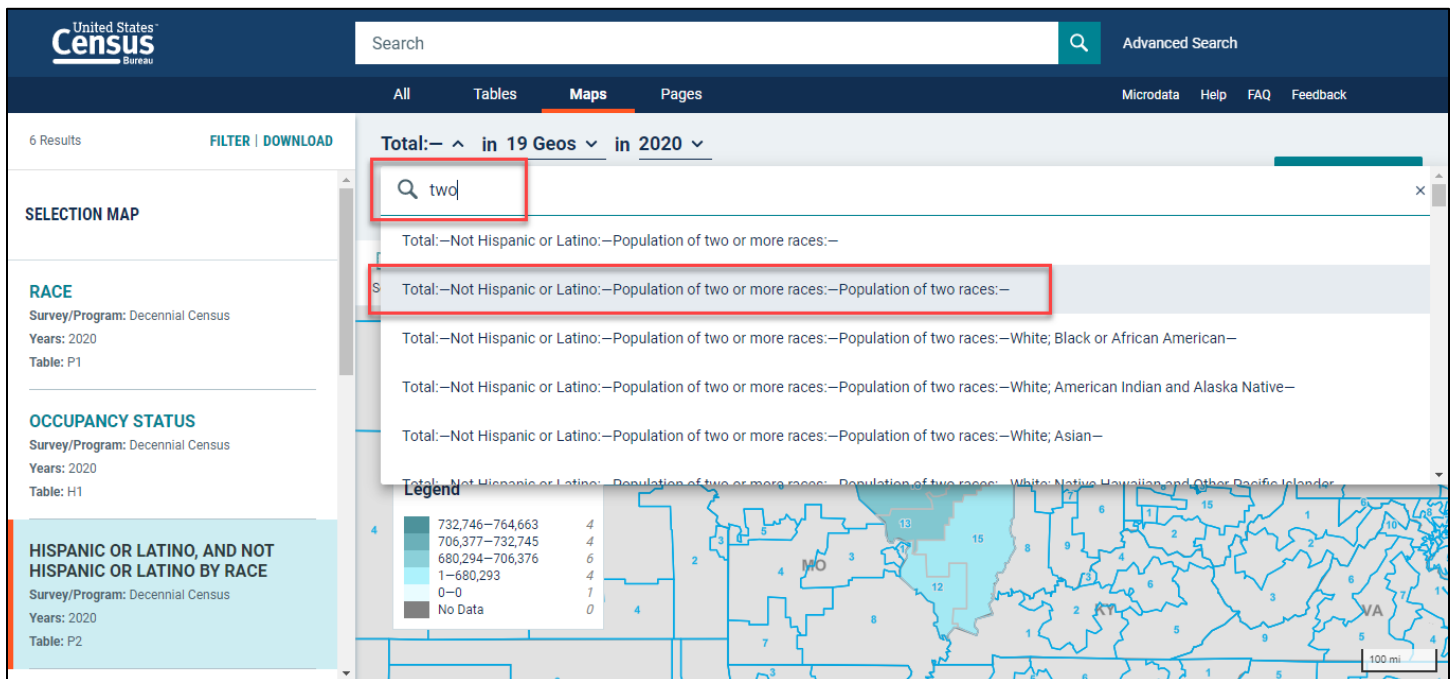

This will show a map that will zoom in on the state of Illinois and display the 116<sup>th</sup> congressional district boundaries for the state of Illinois. The map will automatically default to show the 2020 Total Population of each Congressional District.

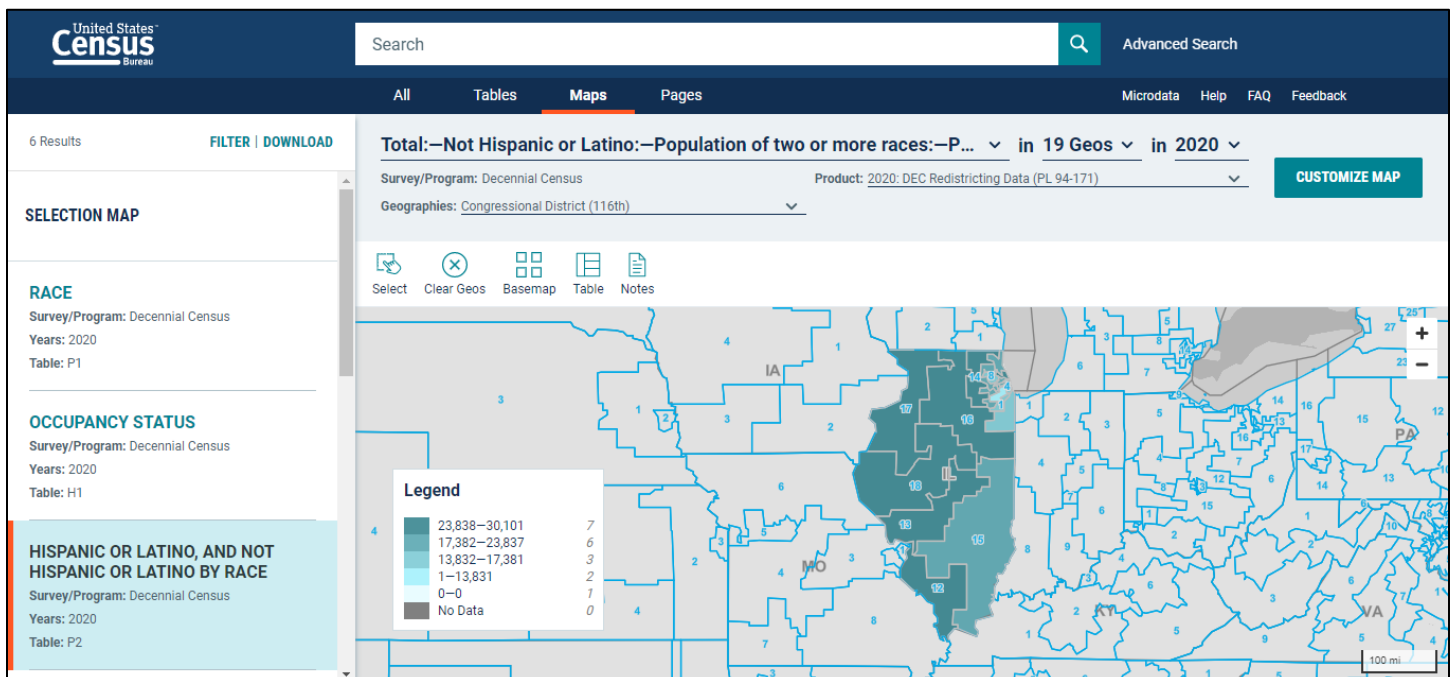

To change the data variable that the map is showing, click on the downward chevron directly to the right of the 'Total' button, which is located on the top left side of the page above the map view. From there, you can scroll down the list and select any of the other variables that are present in the table to view within the map. You can also use the search feature directly above the list to find a particular data variable.

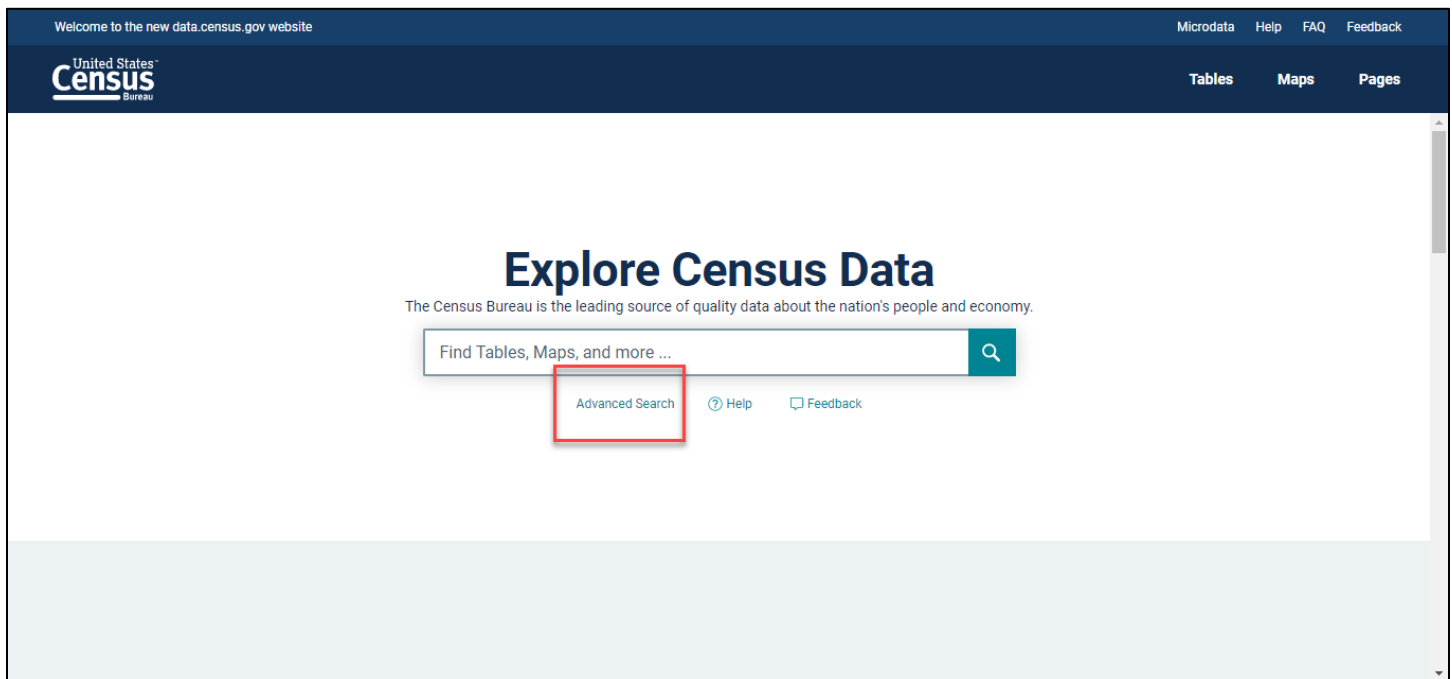

For example, if I want to find a data variable that contains the word 'Two', I can type 'Two' into the search bar and then select a variable that contains that word. Let's click on the data variable for 'Total--Not Hispanic or Latino--Population of two or more races--Population of two races.'

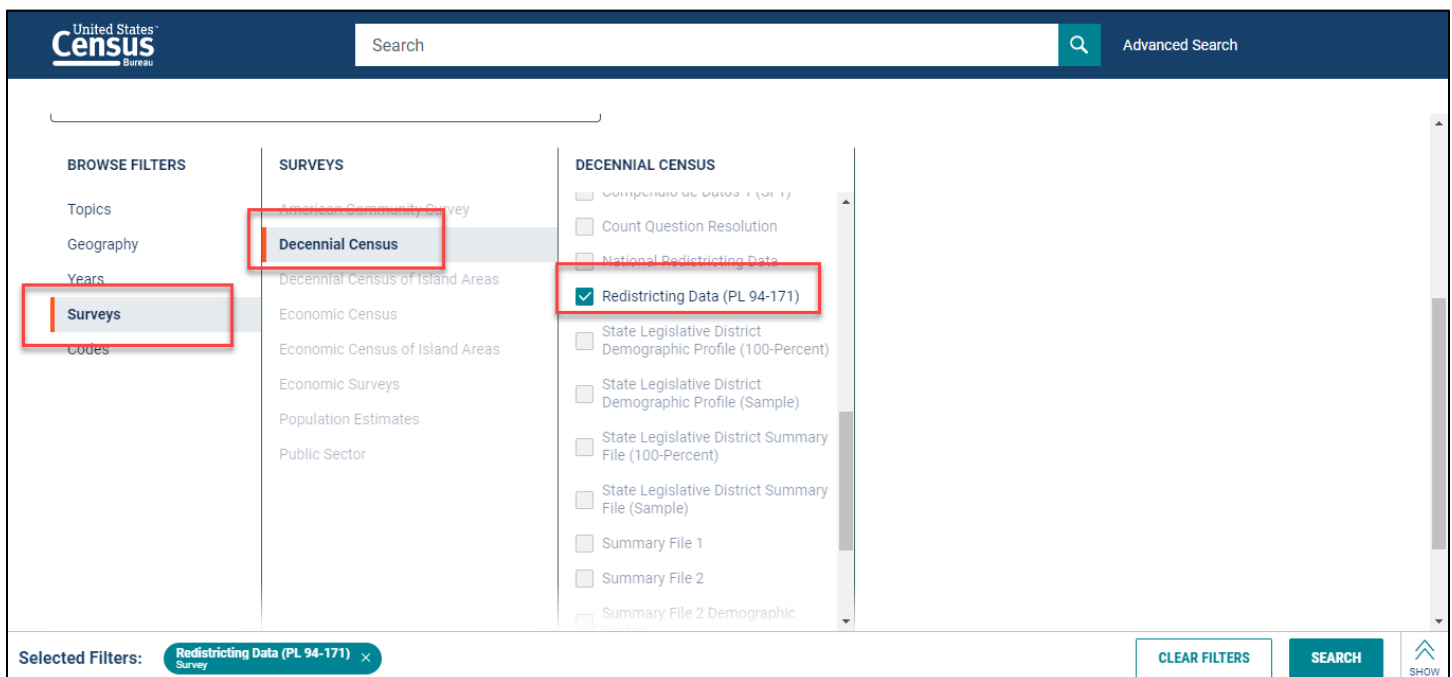

Notice that the map updates with data for the new variable I selected, and the map now shows that Congressional districts in darker shades of blue have higher number of people who identify as Not Hispanic or Latino with two or more races.

With the release of the 2020 Redistricting Data, you'll also be able to compare data from the 2010 Redistricting Data as well. To do this return to the main landing page and then click on the 'Advanced Search' button again.

From there, click on Surveys and choose the Decennial Census option. Then check the box for Redistricting Data (PL 94-11).

Next, select the geography you wish to view. For this example, let's choose all counties within the state of Alabama. To do this, go to the 'Geography' filter and select 'County'. Then select 'Alabama'. In the next filter panel, select 'All counties within Alabama,' which is located at the top of the list, and then click on the 'Search' button on the bottom right corner of the screen.

The screenshot shows the United States Census Bureau search interface. The 'BROWSE FILTERS' panel on the left has 'Geography' selected. The 'GEOGRAPHY' panel shows 'County' selected. The 'WITHIN (STATE)' panel shows 'Alabama' selected. The 'ALABAMA' panel shows 'All Counties within Alabama' selected. The 'Selected Filters' bar at the bottom shows 'Redistricting Data (PL 94-171)' and 'All Counties within Alabama'. The 'SEARCH' button is highlighted in the bottom right corner.

There are five tables that will appear in the results page that are available for both 2010 and 2020 (keep in mind the 2020 release includes the additional table, "P5, Group Quarters by Major Group Quarters Type). For this example search, let's choose table P3, 'Race for the Population 18 Years and Over'.

The screenshot shows the United States Census Bureau search results page. The 'Tables' section lists five tables: 'RACE', 'OCCUPANCY STATUS', 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE', 'RACE FOR THE POPULATION 18 YEARS AND OVER', and 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE FOR THE POPULATION 18 YEARS AND OVER'. The table 'RACE FOR THE POPULATION 18 YEARS AND OVER' is highlighted with a red box. The 'Public Use Microdata' section is also visible on the right side of the page.

Once we click on the table, it will automatically default to the most recent 2020 data. To toggle between the 2010 and 2020 data, navigate to the 'Product' dropdown menu located at the top of the screen above the table. When you click on the downward facing chevron, you have the option of viewing either the 2010 or 2020 Redistricting Data. When you click on the 2010 option, the table will automatically update to show data from 2010. You can toggle between 2010 and 2020 to compare the data directly and can see the changes in the geographies you've selected.

## Explore Census Data

The Census Bureau is the leading source of quality data about the nation's people and economy.

Find Tables, Maps, and more ... ?

**Advanced Search** Help Feedback

Click on Surveys and choose the Decennial Census option. Then scroll down and check the box for Redistricting Data (PL 94-171).

The screenshot shows the United States Census Bureau website. The 'BROWSE FILTERS' sidebar on the left has 'Surveys' selected. The 'SURVEYS' section in the main area has 'Decennial Census' selected. The 'DECENNIAL CENSUS' section on the right has 'Redistricting Data (PL 94-171)' checked. The 'Selected Filters' bar at the bottom shows 'Redistricting Data (PL 94-171)'. The 'SEARCH' button is highlighted.

Since we only want the tables from 2020, go to the 'Years' filter and select '2020' from the list and hit the Search button in the lower right corner of the screen.

The screenshot shows the United States Census Bureau website. The 'BROWSE FILTERS' sidebar on the left has 'Years' selected. The 'YEARS' section in the main area has '2020' selected. The 'Selected Filters' bar at the bottom shows 'Redistricting Data (PL 94-171)' and '2020'. The 'SEARCH' button is highlighted.

You should receive a list of all the available tables in return. Select a table to view. For this example, let's choose table P4, 'Hispanic or Latino, and Not Hispanic or Latino by Race for the Population 18 Years and Over'.

The screenshot shows the United States Census Bureau website. The top navigation bar includes the logo, a search bar, and links to 'Advanced Search', 'Microdata', 'Help', 'FAQ', and 'Feedback'. Below the navigation bar, there are tabs for 'All', 'Tables', 'Maps', and 'Pages'. The 'Tables' tab is selected. On the left, there is a list of tables under the heading 'Tables'. The tables listed are: 'OCCUPANCY STATUS', 'RACE', 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE', and 'RACE FOR THE POPULATION 18 YEARS AND OVER'. The table 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE FOR THE POPULATION 18 YEARS AND OVER' is highlighted with a red box. To the right of the table list, there is a 'Public Use Microdata' button with the text 'Create record level custom tables'.

Next, click on the 'Customize Table' button located at the top right corner of the screen above the table.

The screenshot shows the United States Census Bureau website with the 'Customize Table' button highlighted with a red box. The table being viewed is 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE FOR THE POPULATION 18 YEARS AND OVER'. The table is displayed with columns for 'Label', 'Alabama', and 'Alaska'. The data is as follows:

Label	Alabama	Alaska
▼ Total:	3,917,166	554,003
Hispanic or Latino	166,856	33,441
▼ Not Hispanic or Latino:	3,750,310	520,562
▼ Population of one race:	3,630,366	477,883
White alone	2,564,544	340,580
Black or African American alone	976,732	16,566
American Indian and Alaska Native alone	18,137	75,017
Asian alone	59,997	34,290
Native Hawaiian and Other Pacific Islander alone	1,872	8,122
Some Other Race alone	9,084	3,308
▼ Population of two or more races:	119,944	42,679
▼ Population of two races:	114,790	39,971
White; Black or African American	17,569	2,464
White; American Indian and Alaska Native	60,511	23,040

This new view, which is called the ‘Customize Table view,’ is where you can access different functionality by clicking on the buttons in the ribbon located above the table. For example, the ‘Customize Table’ view provides another way to add additional filters to the table. You can select any of the Filters that would be present on the Advanced Search page the table will automatically update to reflect the applied filters.
